Manila, Philippines

WORK EXPERIENCE/S:

INTERN AT WHITESTRING INC | *Remote*

Sep 2026 - Present

Engineering Sandbox Trainee - Taking part in a self-paced, mentor-guided program where I work on hands-on engineering tasks to keep building my skills.

Jul 2026 – Aug 2026

Developer Intern - Trained in Laravel and SQL, then built an expense tracker app with the team using React and TypeScript.

Jun 2026 - July

QA Analyst Intern - Tested the company's software to find bugs and make sure features worked properly before release.

FREELANCE DEVELOPER | *Remote*

January 2023 - Present
Web, Mobile, Embedded Systems / Arduino & Microcontrollers

- **POS Systems;** Built full-cycle point-of-sale systems with inventory management and real-time sales reporting for SME clients.
- **Personal Websites;** Developed responsive personal and portfolio websites using Next.js and React with modern UI/UX.
- **APFC using ESP controllers;** Designed and programmed an Automatic Power Factor Corrector using ESP microcontrollers with real-time monitoring and cloud-based logging.
- **IoT based Earthquake Detector using ESP controllers;** Built an IoT seismic detection system using ESP controllers with automated alerts and remote data monitoring via cloud integration.
- **Misting Sanitation Pipes using Arduino controllers;** Developed an Arduino-powered automated misting sanitation system with QR-based attendance tracking and sensor-triggered activation.

FREELANCE GRAPHIC ARTIST | *Remote*

January 2022 - 2024
Marketing publications, Videos, Photography, Basic Animations, Digital Ads

- **Marketing Publications;** Designed posters, flyers, and digital ads for events and campaigns; handled on-the-spot content creation and real-time posting during live sessions.
- **Video Editing;** Edited promotional videos and produced motion graphics and typography animations using DaVinci Resolve and Adobe After Effects.

LEADERSHIP EXPERIENCE/S AND AFFILIATIONS:

QUANTUM COMPUTING SOCIETY OF THE PHILIPPINES | Volunteer work

APRIL 2026
Under the Technical Team | Full-stack Developer

AWS User Group BuildHers+

MARCH 2026 - Present
Support Council for the Operations Department

ARDUINO PHILIPPINES | Volunteer work

MARCH 2026

Under the Creatives & Graphics Department

BLOCKCHAIN CAMPUS CONFERENCE | Volunteer work
MAY 2025 – NOVEMBER 2025
Under the Technical Team | Full-stack Developer

Amazon Web Services – Cloud Club: Spade
JUNE 2024 - Present
Support Council for the Creatives & Graphics Office

Computer Science Student Organization
JUNE 2024 – JUNE 2025
Support Council for the Creatives & Graphics Office

PROJECTS:

Reinforcement Learning-Based Power Factor Corrector
Developer
Developed a reinforcement learning model to dynamically optimize power factor correction, reducing energy waste in simulated electrical system environment.

The Blind Leading the Blown Up
Lead Project Personnel, 3d Game Designer, Developer
Led the design and development of a 3D game, overseeing gameplay mechanics, level design, and end-to-end project delivery as a designer and developer.

PsoMetric: Image Recognition System for Psoriasis Severity Assessment
Full-stack developer, UI/UX Designer
Built a cross-platform React Native app enabling clinicians to upload skin images and receive AI-powered real-time PASI severity scores with annotated lesion analysis.

MetaCampus: An Augmented Reality System for Interactive Student Events
Project Manager, Full-stack developer, UI/UX Designer
Managed end-to-end development of an AR campus engagement platform, leading UI/UX design in Figma and coordinating team milestones for on-time delivery.

One Indang: Digital Governance Mobile App for the Municipality of Indang
Full-stack developer, UI/UX Designer
Led full-stack development of the official LGU Indang mobile app, delivering a citizen-centric platform for public services, emergency contacts, news, and community issue reporting.

Dash Car Rentals
Full-stack developer, UI/UX Designer
Designed a responsive car rental platform prototype in Figma with intuitive booking flows, real-time availability checking, and a seamless user experience.

HACKATHONS:

KadaKareer × Home Credit: AI in UX for FinTech Hackathon | Champion

I hereby attest that all information indicated above are true and correct.

TIFFANY LYSSA PALAGANAS

DECEMBER 2025
UI/UX Designer, Front-end Developer

CERTIFICATIONS:

Mechatronics Servicing NCII
TESDA

Introduction to Cyber Security
Cisco

Cyber Threat Management
Cisco

Introduction to Cloud Computing
DataCamp

Git Foundations
DataCamp

PROFESSIONAL SKILLS:

- **Programming and Software Development Skills:** UI/UX, Embedded Systems & Electronics (Arduino), Python, C++, mysql, JavaScript, Next.js, React, Web Development, AWS Cloud Services, Git/GitHub, Vercel, Firebase, SupaBase, Predictive Modeling, OpenAI gymnasium, Tensorflow.
- **Multimedia Content Creation:** Visual Marketing Materials (Product Publication Materials), Video Editing, Digital Illustrations, Motion Graphics, Basic Animation, Digital Marketing Editing
- **Creative Digital Media Skills:** Videography, Photography, Digital illustrations
- **Software Proficiency:** Figma, Adobe Photoshop, Adobe Illustrator, Adobe After Effects, Davinci Resolve Capcut, Canva, Picsart, Pixellab, Ibis paint
- **Soft Skills:** Initiative, Leader, Project Management, Communication, Attention to detail, Problem solving

EDUCATION:

- BS Computer Science, Cavite State University

I hereby attest that all information indicated above are true and correct.
